

Public Health Nursing for School Aged Children

SchoolScreener Information

What is SchoolScreener?

The Public Health Nursing Service for school aged children use School Screener, a confidential digital platform to carry out online health screening questionnaires and the growth measurement programme

For more information, you can watch this simple explainer video. Scan the QR code with your smart phone or visit: www.youtube.com/watch?v=QUO22QXeoZ8

Why should I use SchoolScreener?

It is quick and easy to use, and when health questionnaires are completed, instant access to helpful information and 'clickable links' to local and national support is provided.

When your child is weighed and measured, you will receive an email to let you know the results letters are ready for you to view on the School Screener 'Parent Portal'.

If you do not want your child to be weighed and measured, you should 'Opt-Out' via the 'Parent Portal' at least 2 weeks before the screening is due to take place.

How do I use SchoolScreener?

When your child starts school, you will be issued with a letter from our service containing a 'unique link' to create a 'Parent Portal' account, which you can access using a smart phone, tablet or computer.

It's important to register, as once you have an account, this is where you will be able to login to access the Health Screening questionnaire and your child's results from the growth measurement programmes.

To create an account on the Parent Portal, just follow these simple steps:

How do I register for the Parent Portal:

<https://parentsupport.schoolscreener.com/portal/en/kb/articles/how-to-register-for-the-parent-portal>

How do I get started?

<https://parentsupport.schoolscreener.com/portal/en/kb/articles/how-do-i-get-started-19-7-2019>

1. Open the unique link in **Google Chrome** or **Microsoft Edge** web browser to visit the Parent Portal Homepage.

The screenshot shows the 'Reception - Worcestershire School Health Assessments' Parent Portal. At the top, there is a video player showing children playing with colorful blocks. Below the video, the text reads: 'Welcome to the Parent Portal. We are inviting you to complete an online Health Needs Assessment for your child starting primary school in September. This questionnaire is an opportunity to have your child's health and development reviewed. It will take around 10-15 minutes to complete. After you submit your questionnaire you will be able to view your questionnaire responses with some health/health messages and links for further advice if necessary. You will also receive a confirmation email of your submission. A name will appear on the questionnaire and may contact you to the health advice, information and support.' There is a 'Register now' button. On the right side, there is a login form with fields for 'Email address' and 'Password', a 'Forgot your password?' link, a 'LOGIN' button, and a note: 'Don't have an account? Register now!'.

6. Once you have logged into the Portal, you can select which form(s) to complete.

The screenshot displays a 'Submissions' page with three campaign cards. Each card has a header, campaign name, status, child status, audience, and a 'Fill in the questionnaire form' button. The first card is for 'Hearing Screening Pr...' (pink header), the second for 'Height and weight ch...' (green header), and the third for 'Reception - Worcestershire Sc...' (blue header). All cards are for 'WORCESTERSHIRE HEALTH AND CARE NHS TRUST' and have a status of 'New'. The child status is 'Not Selected' for all. The audiences are 'Reception', 'Reception and Year 6', and 'School Entry' respectively. Each card also contains detailed instructions for the user.

Once you have registered for an account, you will need to confirm and accept you have read all the information.
