

## Sticky Knowledge:

- To know computers can be used for communication (video calls, text messages).
- To know who to talk to if they are worried or concerned about something they have seen online.
- To know that not all information online is true.
- To know what personal information is and that we should not share it online.
- To know the difference between fact and opinion

## Glossary:

- Password - a secret word or phrase that must be used to gain admission to a place
- Digital content - information that exists in the form of digital data
- Permission - the act of allowing someone to do a particular thing
- Personal information - any information about an identifiable individual.
- Privacy - a term used to describe keeping your personal information safe
- Digital footprint - the information about a particular person that exists on the internet as a result of their online activity
- Age rating - advice given to films and other content to help children and families choose the appropriate age to interact with the content.

## BE INTERNET SMART

### Share with Care

Good (and bad) news travels fast online, and without some forethought, kids can find themselves in tricky situations that have lasting consequences. The solve? Learning how to share with those they know and those they don't.

#### Communicate Responsibly

- ✓ Encourage thoughtful sharing by treating online communication like face-to-face communication; if it isn't right to say, it isn't right to post.
- ✓ Create guidelines about what kind of communication is (and isn't) appropriate.
- ✓ Keep personal details about family and friends private.
