### Summary of results and next steps:

- The results are a positive endorsement of parental satisfaction with the school with 99% agreeing that their child is safe, happy and they are able to recommend the school to other parents.
- In 9 of the remaining 11 categories, 95+% of responses agree / strongly agree that the school is meeting their needs (when disapplying the Don't Know responses)
- Our focus will be to investigate the numbers disagreeing that concerns raised with the school have not been dealt with properly and those concerns raised about support for SEN pupils (which is an ongoing objective for the school this year). The Governing Body will have this data shared with them to allow progress in addressing these points to be monitored in the future.

**We appreciate the feedback and will use this to inform future school improvement objectives.**
